

# Dahle 20835 EC High Security Shredder

NSA/CSS O2-01 Approved

In order to protect our National Security, military and government agencies require higher levels of security from their paper shredders. This Dahle High Security Shredder is NSA approved for **NSA/CSS Specification 02-01**.

Known for its power and waste capacity, this Dahle Department Shredder provides a practical solution for accommodating the shredding needs of even the busiest offices. Its attractive design and large waste bin make this a nice addition to any large office, copy room or communications center.

The Dahle 20835 EC features a 16" feed opening to easily accommodate letter, legal and wide computer paper. It has a maximum shred capacity of 5/7 sheets at a time and features an oversized

waste bin capable of holding 35 gallons of shredded material.

A solid steel frame houses and aligns two perfectly matched cutting cylinders milled from a single bar of German Solingen steel. It's this design that maximizes durability and minimizes flexing to produce a consistently fine 1mm x 4.7mm particle size.

This Dahle High Security Shredder is a serious machine capable of reducing a single sheet of paper into over 15,500 tiny particles. These particles are so small that they have been rendered impossible to reassemble. In a world of uncertainty one thing's for certain, whatever you put through these shredders, we guarantee will never be seen again.

## 20835 EC

1mm x 4.7mm Shred Size  
5/7 Sheet Capacity  
Security Level 6  
1 Hp Motor  
Fully Automatic Features

*Dahle High Security cutting cylinders reduce a sheet of paper to over 15,500 pieces.*

*Chain-driven cutting mechanism provides slip free power for maximum throughput.*
