

# Dahle CleanTEC® Shredder

## Department Series

Improving air quality in the office is the basic foundation of the CleanTEC® design. This integrated air filtration system collects fine dust where it is created, directly above the cutting cylinders. The dust is then pulled through a closed system into a specialized CleanTEC® filter on the back of the machine. This filter permanently traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

Safety continues to be the priority at Dahle, and the CleanTEC® 41614 shredder features the most advanced safety features in the industry. Equipped with the revolutionary Safe Technology Package, each shredder offers Verbal and Contact Emergency Shutdown. In the event of an emergency, simply say "Stop" or tap the top cover of the machine, and the shredder immediately stops. The 16" feed opening is reinforced with steel and only large enough to accept paper. As an added safeguard, this opening contains electronic sensors that will turn the shredder off, should your fingers get too close. An emergency shutoff switch is also located on the back of the machine as yet another level of personal safety.

The easy-to-use command dial controls all of the machine's functions and notifies the user when sheet capacity is exceeded, when to replace the filter, and even when to change the shred bag. Equipped with ESP (Electronic Sensing Protection), the shredder "Knows" how much paper you're trying to shred and won't allow sheet capacity to be exceeded.

The CleanTEC® 41614 operates using the intuitive SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after 30 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

The CleanTEC® 41614 can continually shred large quantities of paper and is designed to shred between 2,000 and 12,000 sheets of paper per day. Its powerful motor and large waste capacity make this a nice addition to any large office, copy room or communications center.

### 41614

- 16" Feed Opening
- 25/28 Sheet Capacity
- 1/8" x 1 1/16" Shred Size - Level 3
- CleanTEC® Filtration
- Safe Technology
- SmartPower Management
- EvenFlow Lubricator

The CleanTEC® filter traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

The easy-to-use command dial controls all of the shredder's functions and illuminates the proximity to sheet capacity.

## DAHLE 41614 SPECIFICATIONS

MODEL	FEED WIDTH	CAPACITY #20 / #16	SECURITY LEVEL	SHRED SIZE	FEATURES					MOTOR (Peak hp)	DECIBEL LEVEL	WASTE VOLUME	SHRED BAG	DIMENSIONS
					CleanTEC®	Safe Tech	ESP	SmartPower	Auto Oiler					
41614	16"	25 / 28	3	1/8" x 1 1/16"						2.2 hp	54	45 gal	706	38" x 29" x 20"

All performance data has been established using #20 / #16 bond 8 1/2" x 11" paper. Different paper qualities may yield different results.
