

# Professional Guillotine Paper Cutter

Dahle 533 / 534

Safety is a top priority when Dahle designs its paper cutters and this Professional Series of Guillotines is no exception. A protective guard was added that also doubles as a paper clamp.

This guard not only protects your fingers from being in the wrong place, but when it's depressed, will securely hold your work in place. The blade on this guillotine also features an innovative spring system that will hold the blade at any angle and prevent it from flying up or falling down accidentally.

Dahle's Professional Guillotines are German engineered for heavier applications. They feature a ground self-sharp-

ening blade made of German Solingen steel. This blade is self-sharpening and maintains a perfectly honed edge every time it is used. It offers a cutting capacity of up to 15 sheets of paper at a time and is the perfect tool for cutting paper, card stock, and illustration paper.

Available in 12" and 18" cutting lengths, Dahle Professional Guillotines are the preferred choice of professional photographers, print shops and graphic design agencies.

## PROFESSIONAL SERIES

- ▶ Protective guard keeps fingers safe and holds work securely when depressed
- ▶ Innovative spring system prevents the blade from flying up or falling down
- ▶ Cuts up to 15 sheets of paper at a time
- ▶ Ground self-sharpening cutting blade maintains a perfectly honed edge
- ▶ German engineered for precision and accuracy
