

THE CORE OF YOUR OFFICE ENVIRONMENT

Small Office Paper Shredder - Government Approved (Canada)
Security Level: Type IIIA (Protected B, Confidential) Shred Size: 2mm x 15mm
Dahle CleanTEC® Shredder

41322

- 10 1/4" Feed Opening
- 7 / 9 Sheet Capacity
- 2mm x 15 mm Type IIIA
- CleanTEC® Filtration
- Safe Technology
- Smart Power Management
- EvenFlow Lubricator

The Dahle CleanTEC® is the World's only shredder with a fine dust filtration system. This integrated system collects fine dust particles created around the cutting cylinders, and forces them into a specialized filter on the back of each machine.

Safety continues to be the priority at Dahle, and the CleanTEC® 41322 shredder features the most advanced safety features in the industry. The 10 1/4" feed opening is reinforced with steel and only large enough to accept paper. As an added safeguard, this opening contains electronic sensors that will turn the shredder off, should your fingers get too close. An emergency shutoff switch is also located on the back of the machine as yet another level of personal safety.

The easy-to-use command dial controls all of the machine's functions and notifies the user when sheet capacity is exceeded, when to replace the filter, and even when to change the shred bag.

Equipped with ESP (Electronic Sensing Protection), the shredder "Knows" how much paper you're trying to shred and won't allow sheet capacity to be exceeded.

The CleanTEC® 41322 operates using the intuitive SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after 30 minutes of inactivity. Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs.

Just like any fine-tuned machine, your shredder needs to be properly oiled to run at peak performance. This shredder is equipped with the Dahle EvenFlow Lubricator. This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance.

The CleanTEC® 41322 is designed to accommodate the needs of most busy offices by shredding between 400 and 800 sheets of paper per day. It's a perfect shredder for destroying Confidential Information with this Type IIIA Dahle shredder **RCMP SEG Listed.**

The CleanTEC® filter traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

The easy-to-use command dial controls all of the shredder's functions and illuminates the proximity to sheet capacity.
