

Destroyit Shredders - by Ideal-MBM - Catalog - 2014

Produced by: OREWEB.CA

Destroyit Shredders by Ideal-MBM...

Destroyit is more than a name. It is a symbol of quality derived from a company with over 50 years experience designing and manufacturing business shredders. The quality is a result of a combination of skilled manufacturing employees, modern manufacturing techniques and effective quality control.

Destroyit business paper shredders and multimedia shredders are world renowned for their performance and reliability. In addition to their innovative & functional design - the exclusive "SPS" Safety Protection System puts them among the safest shredders in the world.

Document security is a vital issue in today's business environment. No company can afford to risk harmful litigation or fines due to theft of confidential data. Putting your trust in a shredding service (and hoping they do the job correctly) is risky and expensive. The most effective way to ensure total security is to shred in-house "at the source".

Destroyit shredders put you in control of your document destruction security with-out the risk. And all at a lower cost than hiring a shredding service over the long term.

Check out the full line of Destroyit paper shredders at:

Legend / Symbols

Shown beside the model number - indicates **RCMP / Government of Canada Approved Security Class** Rating.
*All SEG (Security Equipment Guide) listed equipment are *Cross Cut Shredder* models.

Indicates the model accepts and shreds **Paper**

Indicates the model accepts and shreds **Staples**

Indicates the model accepts and shreds **Paper Clips**

MultiMedia / IT - Indicates the model accepts and shreds **Smart Cards, Debit Cards, Credit Cards, ID Cards**

MultiMedia / IT - Indicates the model accepts and shreds **Optical Media Data Disks**, including:
CDs (Compact Disks), DVDs (Digital Video Disks / Blueray Disks).

Destroyit / Ideal-MBM Paper Shredders - Features

Unlike cheaper brands, Destroyit shredders are built to with-stand the rigors of day to day business activity. With higher standards like these, and advanced technology and safety features - these paper, multimedia / IT, and industrial shredders will provide many years of dependable service.

An electronically controlled transparent safety shield keeps fingers, ties, and other objects away from the cutting shafts when shredding paper.

destroyit
BUSINESS SHREDDERS

The safety shield also stops stray shards from flying up when shredding CDs, DVDs, Smart Cards / Credit cards on multimedia rated models.

SPS (Safety Protection System) also includes overload and other electronic safety features to meet the needs of business and commercial document destruction.

Solid construction using laminated wood ensures durability and long life. Cabinet doors are equipped with adjustable, heavy-duty metal hinges.

A magnetic proximity switch on door cuts power to the motor if cabinet door is open.

The multifunctional "Easy Switch" control also functions as an emergency stop.

Limited Lifetime warranty on strip cut and cross cut cutting shafts and wheels on most models.

Environmentally friendly shredders - the EMS (Energy Management System) puts the shredder into a power saving mode after 1 hour of inactivity - equipped on most models.

Some cross cut and high security shredder models are also factory equipped with an automatic oiling system to help extend the life of your shredder.

Deskside Paper Shredders - Destroyit / Ideal-MBM

For use in small offices with - 1 to 5 users - Up to 500 sheets per day volume - Low to High Security needs.

Did you know...

Shredding in the office - at the source - is the only sure fire way to ensure your documents are destroyed. When you use a shredding service, not only do you expose your information to potential leaks, your paying to help the shredding service make a profit. The disposal waste is often taken out of your own municipality, and sold to recycling services elsewhere to maximize the shredding company's earnings. This reduces your local municipality's revenues from recycling revenue. It also leaves a larger carbon footprint since you're paying for transportation and other utility costs to shred your documents offsite. Over the long-term - in house shredding equipment can cost you less than 10% of what using a shredding service will cost.

Shred format samples and security levels...

Strip Cut - 1/4" wide shred
or 6 mm - Security Level 1

Strip Cut - 3/16" wide shred
or 4 mm - Security Level 2

Type IIIB / Level 4 - Cross Cut
Sheet capacity (#20 / #16): 65 / 82
Shred Size: 3/32" x 5/8" / 2 mm x 15 mm

NOTE: Special Power Requirements on all model versions.

Maintenance Supplies - Shredder Oil - Bags

Genuine Destroyit Shredder Oil
Cleans and lubricates your cutting cylinders for longer life and faster shredding performance.

Or, use OREweb.ca completely comparable house brand oil at a lower cost.

The recommended shredder bags OREweb.ca carries are stronger than other bags on the market. They are sized for specific shredder models. They are also a heavier gauge material so they won't break during bag changes when full of waste.
